What is life Like in Antarctica?

Antarctica is like no other place in the world. It is unique. It is very big. It is like the United States and Australia together. Antarctica is the coldest place in the world. The temperature is sometimes - 125°F (-87°C). August and September are the coldest months because there is no sun. Antarctica is at the southern tip of the world. It is the highest continent. It is 10,000 feet high. Antarctica also has very strong winds. The wind sometimes blows two hundred miles an hour. It is also the driest place in the world. Antarctica is drier than the Sahara Desert! Antarctica is also empty. There are huge glaciers and ice everywhere. A glacier is an area of ice that moves slowly. The ice and glaciers are beautiful. But most plants and land animals cannot live on the ice. It is too cold. There are no trees, no rivers, and no cities in Antarctica. There are no land animals. Only penguins and other sea birds live there. Antarctica doesn't belong to any one country. In fact, every country owns Antarctica. More than twenty countries have stations in Antarctica. A station is a place where scientists do experiments. There are separate stations for different countries. The scientists are the only people who live in Antarctica. In all, over four thousand people live at the stations in the summer. Over one thousand people live there in the winter.

Life on an Antarctica station is hard. It is like life on a space station. The sun shines for six months, and then it is night for six months. People usually have problems with sleeping and eating. They eat more because they are not busy. In an emergency, it is hard to get help. In 1999, an American doctor named Jerri Nielsen realized she was sick. She had cancer. It was winter, and airplanes could not land in Antarctica. She was only doctor there. Dr. Nielsen had no choice. She had to stay. An airplane dropped medicine to her, and she took care of herself. Several months later, Dr. Nielsen returned to the United States to get special medical help. Today, more and more people visit Antarctica. Ships go to Antarctica during the summer months from November to February. People want to visit this unusual place, but they don't want to live there.

#### 4. Read the text and retell. №1 Fattening Rooms

In North America and Europe, most women want to be slim. In those places, a slim woman is a beautiful woman. People think that a slim woman is healthy and careful about what she eats. But in some parts of the world, women want to be fat. In many parts of Africa, a fat woman is a beautiful woman. How fat? There is no limit. If a woman is fat, they think that she is healthy and rich. If you are slim, that means you are a worker with little money and not enough food to eat. Also, people believe that a slim woman will be sick or that she can't have children. A fat woman has enough food to eat, so she is healthy and will have many healthy babies.

To help girls and women look healthy and beautiful, people in central Africa send them to a fattening room. Fattening rooms are an old tradition and an important part of a girl's life. After a girl goes to a fattening room, her family and her village say that she is a woman. The fattening room is usually near the family's house or part of it. In the fattening room, a girl sits on a special chair until it is time to eat. Then she sits on the floor on a mat made of leaves. She also sleeps on the floor. Her mother gives her bowls of food like rice, yams, and beans—the kinds of foods that help her get fat. She also drinks a lot of water.

In the fattening room, the girl does not move very much. She can only eat, sleep and get fatter. Her only visitors are women who teach her how to sit, walk, and talk in front of her future husband. They also give her advice about cleaning, sewing and cooking. It is boring to be in a fattening room for so long with nothing to do, but a girl doesn't mind. She knows that it is important for her.

In southeastern Nigeria, brides go to a fattening room or a fattening farm before they get married. They cannot leave the farm for many weeks. At the end of this time, but before the wedding, the brides walk through the village so everyone can admire their big bodies. After a woman is married, she can also go to a fattening room
