КАЛЕНДАРНЫЙ ПЛАН
на проведение НИР по внутривузовскому гранту

1. Тема НИР : IELTS language training centre

	НАМЕНОВАНИЕ РАБОТ	СРОКИ ВЫПОЛНЕНИЯ	ОТЧЕТНОСТЬ
I этап подготовка			
1	Переговоры с Британским консульством	Сентябрь, 2022	Распространение информации о проекте
2	Привлечение преподавателей IELTS	Октябрь-ноябрь 2022	Обучение тренеров проекта/сертификаты
3	Соглашение о сотрудничестве с Imperial English UK	Ноябрь, 2022	Договор
4	Формирование команды специалистов участвующих в реализации проекта	Ноябрь, 2022	Список сотрудников/ РГ/ Плодотворное достижение цели проекта
5	Организовать встречу рабочей группы проекта и распределение обязанностей	Сентябрь-ноябрь, 2022	Собрание РГ/Выполнение и определение поставленных задач и пути их решения
6	Открытие проекта	Ноябрь, 2022	Официальный старт проекта
7	Пробретение необходимых книг и канц.товаров (книги, бумага, карандаши, ручки, маркеры итд.	Декабрь, 2022	Финансов. отчетность
II этап планирование			
8	Составление рабочей программы	октябрь, 2022	Содержание обучения
9	Согласование тестовых заданий	Ноябрь, 2022	Утверждение заданий
10	Детализация объема работ, а также их выполнение	Ноябрь-Декабрь, 2022	Организация расписания
III этап исполнение			
11	Отбор участников проекта (Placement test)	ноябрь, 2022	Отбор 50-100 участников до 45ти лет
12	Обучение участников IELTS Skills	декабрь-ноябрь, 2023	Процесс изучения материала и корректировка
13	Проведение рубежного, итогового тестирования	март, 2023-октябрь, 2023	Определение качества изучаемого материала
14	Принятия решения о изменениях	Каждый семестр	Корректировка
IV этап контроль			
15	Анализ текущего состояния проекта	промежуточно	Время, результаты, стоимость
V этап завершение			
16	Мониторинг участников	Март, 2023-октябрь, 2023	Сдача результатов проекта
17	Заключительный отчет по проекту	Ноябрь, 2023	Сдача проектной документации

Руководитель проекта: _____

1. Introduction

The project "IELTS Language Training Center" is being implemented in the 2022-2023 academic year in order to improve the level of the teaching staff of Osh State University in English and prepare for the international IELTS exam in accordance with the instructions of the Ministry of Education and Science of the Kyrgyz Republic for universities and the requirements of the IAAR.

Instruction of the Ministry of Education and Science of the Kyrgyz Republic to ensure the mandatory knowledge of the teaching staff in English at the level of: IELTS - 5.5 points. In case of non-fulfillment by medical universities of the above protocol instructions, universities will be deprived of the opportunity to accept applicants for the next academic year.

IAAR requirement: the level of English teaching staff of IMF must be confirmed by IELTS centers. Certified IELTS teaching staff will be able to independently publish in WoS, Scopus journals, as well as take part in international English-language seminars, trainings, summer schools, enroll in master's and postgraduate studies.

The IELTS Center will be in demand among applicants and students entering foreign universities, as the IELTS certificate is a key document for admission.

Participants according to the purpose of the project:

- Learning Academic English: Meeting Criteria for Writing Articles can independently write a scientific article in English with;
- knowledge obtained with the help of mentors with a scientific degree; publishes scientific articles in the publications of the RSCI, WoS, Scopus, using get;
- international conference on the English language, can participate in seminars;
- receiving investments, grants and scholarships;
- by improving the level of English can improve skills in countries;
- be able to pass the IELTS test;

The project was approved by the STC Osh State University and prepared by a special committee of the university.

financed by special funds of the university.

Since November 2022, work on the project has been carried out in accordance with the established calendar, based on the plan and the approved estimate.

In addition to teaching in academic English, the center provides assistance in translating the scientific works of the teaching staff of Osh State University into English.

2. Purpose, objectives, object of study and relevance of the project.

1. Center opening "IELTS Language Training Centre" on the basis of Osh State University

2. Advanced training of teaching staff in the specialty for abroad due to the improved level of English;
3. Take part in English-language trainings, conferences, seminars, summer schools;
4. Acquisition of skills for conducting independent scientific research;
5. Possibility of publication in international scientific journals.
6. The opportunity for students and applicants to take IELTS for admission (master's, doctoral studies) to foreign universities
7. Provision of certified IELTS teaching staff of Osh State University;

IELTS is an international exam that allows you to assess the knowledge of English in people for whom it is not native. Based on the results, the level of proficiency in language skills of listening, writing and speaking, as well as reading is determined.

The IELTS certificate is accepted by educational institutions and organizations in more than 130 countries. And it's not just the UK, USA and Canada. Test results can be submitted to institutions in New Zealand, South Africa, Ireland, Australia, Korea, Japan, China and many other countries in Europe, Asia and Latin America.

The advantages of IELTS are efficiency - receiving official IELTS test results in 2 weeks; Flexibility - choose the exam option, depending on your goals. This is the first exam that assesses language proficiency, taking into account the environment in which the candidate will use their English.

IELTS provides the following perspectives:

- Fulfillment of the requirements of the Ministry of Education and Science of the Kyrgyz Republic and IAAR
- Participation in international English-language seminars, conferences, trainings
- Independent writing of articles and other scientific papers in English, as well as their subsequent publication in scientific journals WoS, Scopus, which in turn will allow the university to enter the top 1000 universities in the world and win a place in the QS ranking.

3. Methods of research and substantiation of the possibility of implementing the idea of the project.

This project consists of three parts: Selection of participants, where, with the help of testing, the levels of English will be determined and distributed to the appropriate groups. This will be followed by intensive IELTS Skills training which includes 4 sections: Listening, Reading, Writing and Speaking.

As a result of this course, participants will be able to pass the IELTS exam, which will meet the requirements of the Ministry of Education and Science of the Kyrgyz Republic and IAAR. After preparing for IELTS, the teaching staff will significantly improve the level of English and subsequently will be able to independently write a scientific article in English, following the criteria for writing an article and using the knowledge gained with the help of mentors with a scientific degree.

The research team's scientific background on the topic of the project.

English teachers (hereinafter Contractors) have British TESOL, Imperial English UK certificates - an internationally recognized certificate that meets European and IELTS standards.

Also, the performers of this project in the 2021-2022 academic year worked on the project "Language of the Academy: how to write and publish a scientific article in English", where

teachers were trained in English and academic literacy when writing scientific papers. At the end of the project, the project participants published a scientific article in the journals indexed by Web of Science, Scopus and RSCI.

4. Estimated results of the research and ways of their commercialization (implementation).

The project began work on December 6, 2022 in stages: to determine the level of language proficiency, teachers were sent a test in Google format, according to the results of which the participants were divided into 2 groups depending on their level.

The learning materials, chosen according to the specialization of the participants (Professional English), are unique to the participants and critical thinking provides the foundation. On the other hand, trainings that are held regularly twice a week develop basic cognitive skills such as analysis, synthesis and evaluation, as well as language skills necessary for academic success.

EL Fellow (English Language Fellow) volunteer Tim UAL of the US Department of State, based in Kyrgyzstan, also attends classes as a native speaker and empowers participants to expand their language learning opportunities. Along with learning English, participants also receive information about the structure, stages and methods of writing a scientific article in English. Monitoring of the project participants in March showed that their level of knowledge of the English language has increased. At the same time, to test the skills of grammar, vocabulary, writing and reading comprehension in the test, test results are displayed at the end of each section in order to check the assimilation of the material.

5. Conclusion

Within the framework of the project, the center is equipped with appropriate equipment and modern technology; trainers and a number of teachers took part in online and offline seminars in order to improve their skills and received certificates.

In February 2023, Osh State University and Director of Imperial English UK, Director of Birmingham College Professor Govind Desai signed an agreement on bilateral cooperation during a visit to Osh State University as part of the project. He also conducted an English language seminar for the teaching staff of the university.

Currently, as part of an agreement with Imperial English UK, project participants are also receiving special applications for studying academic English.

This project will enable participants to:

- Increase the level of knowledge of the English language
- Get an IELTS certificate
- Apply to foreign universities for master's, postgraduate and doctoral studies
- Take part in English-language trainings, conferences, seminars, summer schools
- Possibility of publication in international scientific journals indexed by Web of Science, Scopus and RSCI.
