# Language skills:

- Kyrgyz \*\*\*\*
- Russian \*\*\*
- English \*\*\*
- Turkish \*\*\*

## Other skills:

I like active students and giving more chance to introduce him/herself at classes

# Technical Skills:

I am using Classroom for classes and testing students to combine our topic with practice with situational problems.

Especially I want you learn pictures of organs to know its parts more deeply. It helps to detect exact location of injury or you can explain what pathology is and where is it.
