CEFR: Common European Framework of Reference

Typical strengths for your **Listening** score

Your scaled score is close to 300. Test takers who score around 300 typically have the following strengths:

- They can sometimes infer the central idea, purpose, and basic context of short spoken exchanges, especially when the vocabulary is not difficult.
- They can understand the central idea, purpose, and basic context of extended spoken texts when this information is supported by repetition or paraphrase.
- They can understand details in short spoken exchanges when easy or medium-level vocabulary is used.
- They can understand details in extended spoken texts when the information is supported by repetition and when the requested information comes at the beginning or end of the spoken text. They can understand details when the information is slightly paraphrased.

To see weaknesses typical of test takers who score around 300, see the Proficiency Description Table.

Typical strengths for your **Reading** score

Your scaled score is close to 350. Test takers who score around 350 typically have the following strengths:

- They can infer the central idea and purpose of a written text, and they can make inferences about details.
- They can read for meaning. They can understand factual information, even when it is paraphrased.
- They can connect information across a small area within a text, even when the vocabulary and grammar of the text are difficult.
- They can understand medium-level vocabulary. They can sometimes understand difficult vocabulary in context, unusual meanings of common words, and idiomatic usage.
- They can understand rule-based grammatical structures. They can also understand difficult, complex, and uncommon grammatical constructions.

To see weaknesses typical of test takers who score around 350, see the Proficiency Description Table.

* The range of total scores associated with each CEFR level is estimated by adding the relevant cut scores from the Listening and Reading test section CEFR mappings. Whenever possible, ETS encourages score users to consider CEFR levels separately for Listening and Reading rather than using a single overall estimate based on the total score. This approach is more precise and considers a test taker’s language profile, which may differ between listening and reading comprehension.

Note: TOEIC scores more than two years old cannot be reported or validated.

This score report is intended for use only by the institution which sponsored the test administration, and should not be used by other entities for any purpose.
