

ANNUAL WORK PLAN

Academic Medical Research Society (AMRS) for the year 2026 International Medical Faculty Osh State University, Osh City, Kyrgyzstan

1. Strategic Goals (Quality Assurance Logic)

Strategic goal: To position the International Medical Faculty as a regionally leading centre for medical research excellence by dramatically increasing high-quality research output, building advanced research skills, securing competitive funding, and establishing sustainable international research partnerships

Key Annual KPIs (2026 Targets)

Indicator	Target
Faculty and students actively involved in research projects	$\geq 55\%$
Number of active research interest groups / societies	≥ 22
Peer-reviewed publications (original articles + reviews)	≥ 110
Total conference presentations (oral + poster)	≥ 280
Presentations at international / indexed conferences	≥ 40
Externally funded research / innovation projects	≥ 35
Awards, recognitions, travel grants or fellowships secured	≥ 25
Active international collaborative research agreements	≥ 12

2. Calendar of Activities

Quarter I (January – March)

No	Activity	Timeline	Responsible	Expected Result
1	Formal launch & approval of AMRS 2026 structure, regulations, executive board and annual plan	January	AMRS Chairperson + University Administration	Official Rector's and Dean's order, approved bylaws, public announcement, website section launched
2	Opening Symposium "Excellence in Medical Research – Lessons from World Leaders"	mid-January	AMRS Executive + Invited International Speakers	≥ 150 attendees (live + online), recording available, motivation & networking boost
3	Intensive Course: "Good Clinical Practice (GCP), Research Ethics & Responsible Conduct of Research"	February	AMRS Ethics & Training Committee + External Certifiers	≥ 130 certified participants, institutional GCP training standard established

4	Official launch and first meetings of AMRS Research Interest Groups / Thematic Societies	February–March	Department Heads + AMRS Group Coordinators	≥22 groups formally constituted, leadership elected, first activity plans submitted
5	Masterclass Series: “From Research Question to High-Impact Publication” (3-part series)	March	AMRS Publication Academy Faculty	≥100 participants, structured pathway materials, ≥25 one-page research proposals drafted
6	Creation of AMRS Research Project & Collaboration Registry and database (digital platform)	March	AMRS Secretary + IT / Digital Committee	Functional searchable database with ≥70 active / planned projects

Quarter II (April – June)

No	Activity	Timeline	Responsible	Expected Result
1	AMRS International Medical Research Congress 2026 (2-day hybrid event)	late April	AMRS Scientific & Organizing Committees	≥280 abstracts, ≥250 presentations, proceedings published online
2	“AMRS Young Investigator of the Year” National-level Competition & Award	April–May	AMRS Awards Jury (incl. external members)	6–8 finalists, 3 winners, cash prizes + mentorship + fast-track publication support
3	Structured Mentorship & Manuscript Writing Program	May–June	AMRS Senior Mentors Network	≥50 active mentor–mentee pairs, ≥45 manuscripts at advanced draft stage
4	Coordinated submission block to regional & international conferences	May–June	AMRS International Travel & Abstract Committee	≥25–30 accepted abstracts / posters / orals at indexed international meetings
5	AMRS Grant Writing & Funding Academy – Summer Intensive	June	AMRS Funding & Grants Committee + Guest Trainers	≥90 participants, ≥25 high-quality grant drafts completed

Quarter III (July – September)

No	Activity	Timeline	Responsible	Expected Result
1	AMRS Summer Research & Methods School 2026 (2–3 week intensive) (Virtual)	July	AMRS Education Committee + Laboratory Coordinators	≥80 participants, skill certificates, new methods adopted in ≥20 projects
2	Targeted International Grant Application Sprint	August	AMRS Grants Office +	≥25 full proposals submitted

			International Partners	
3	Outgoing & incoming international research mobility / short visits	Jul–Sep	International Office + AMRS Mobility Coordinator	≥10 outgoing & ≥5 incoming researchers
4	AMRS Membership & Ambassador Recruitment Campaign 2026–27	September	AMRS Membership & Outreach Team	≥220 new members, 15–20 campus ambassadors
5	AMRS Research & Innovation Exhibition / Partnership Fair	mid-September	Departments + AMRS Events Team	≥40 showcased projects, ≥10 new collaboration MoUs initiated
6	“Global Grand Rounds” – monthly high-profile virtual seminar series	Sep–ongoing	AMRS Webinar & International Relations Committee	≥180 average attendance per session

Quarter IV (October – December)

No	Activity	Timeline	Responsible	Expected Result
1	Advanced Publication Masterclass: “Navigating High-Impact Journals”	October	AMRS Publication Academy + Journal Editors	≥110 participants, ≥30 papers strengthened
2	AMRS National Medical Research Olympiad & Innovation Challenge 2026	November	AMRS Competitions Committee	≥120 entrants, winners in 6 categories
3	Comprehensive AMRS 2026 Annual Impact Report	December	AMRS Monitoring & Evaluation Committee	Professional report presented to Rectorate
4	AMRS Annual Awards Gala & Celebration of Research Excellence	mid-December	Rectorate + AMRS Executive Board	≥20 awards presented, high-profile ceremony
5	Strategic Retreat & 2027 Planning Session	late December	AMRS Full Council + Invited Stakeholders	Evidence-based 2027 draft plan
6	Launch of “AMRS Research Toolkit” permanent online platform	December	AMRS Digital & Knowledge Management Team	Fully operational hub, ≥300 unique visitors first month

3. Publication Activity Targets (2026)

Indicator	Target
Original articles & reviews in peer-reviewed journals	≥ 75
Articles in Q1 / Q2 Scopus / Web of Science journals	≥ 30
Co-authored papers with international partners	≥ 45
Conference full papers / proceedings in indexed volumes	≥ 60
Abstracts in indexed international conference proceedings	≥ 220

Open-access publications	≥ 65
Publications with AMRS affiliation clearly stated	≥ 95

4. International Research Activities (2026 Highlights)

- Active participation in 3–4 Erasmus+ KA1 & KA2 calls • Initiation of 2–3 structured bilateral / multilateral research consortia • Co-hosting 1 international webinar series with top partner faculties
- Joint grant applications with ≥3 high-profile universities • Goal: ≥12 active international co-authorships / joint projects • Regular “Meet the World Leader” virtual conversations

5. Monitoring and Evaluation (PDCA Cycle)

Stage	Activities
PLAN	Approval of plan and KPIs
DO	Implementation of activities
CHECK	Quarterly monitoring
ACT	Improvement and corrective actions

6. Expected Outcomes by End of 2026

Strong research culture & confidence boost • Major rise in high-quality publications • Increased international visibility • Sustainable clinician-scientist pipeline • Better capacity to attract funding • Foundation for future research centre/institute
