Presentation

Online lectures save our time.

Everything is fine

Clearness

The course had well-structured content with clear explanations and good clinical relevance.

Nice

Not bad, but need more teachings

Good way of teaching

I think now 8 th semester system was good

Excellent

Aizhan ma'am way of teaching

Clinical concepts

Very good

Good practical skills

Excellent

Made the concepts easy to understand

its engaging teaching style and well-structured content

Learning

Everything is good overall

I learn so many thing

Goal

The strongest aspect of the course was its clear, practical explanations that made complex concepts easy to understand and apply.

Re-module

clear integration of theory with clinical practice

Good teaching

Practical classes

Detailed analysis

Good course

I'd

Nice explanation

Solving the interactive, practical application of theoretical concepts through engaging discussions and comprehensive instructor feedback

Clinical

Lecture is good

Explanation wnd regular classes

Practical training

Clinical buildup

Gaining important knowledge

Clinical discussions

That I learned a lot

.

Mbbs become good doctor

To learn

Practical classes

Lecture

Teacher should explain in pratical class

Less lectures

good

The well organized course

The practical assignments were the strongest aspect because they reinforced real-world application of the concepts.

It's good for me

clear and practical explanation of concepts

Practice classes

Detailed studies

To make every concept crystal clear to the students

Clinical practice

Nothing

Practical classes is good

Theory

Interactive Environment

Practice

Online lectures

Classes in hospitals

GOOD LECTURES AND PRACTICAL STAFFS

Very Long course duration

The strongest aspect of the course was likely the clinical exposure and case-based learning, which helped integrate theoretical knowledge with practical skills

clear integration of theoretical concepts

The strongest aspect is the clear clinical correlation that helped me as a medical student understand better.

Knwoladge

Non

Nothing much

Very good teaching

Clinical management, treatment and assessment

ID

Abzhaparova A.Z. maam

micro semesters is really good and give students more time for study

Hospital practice should be a good thing

Interactive practicals

really good better than last year.

About dean:Aizhan mam is very good. We can easily contact her. She won't show attitude. She is very down-to-earth. I don't want to say anything about others.

The vice-dean was supportive, approachable, and responsive to student concerns.

Vice dean mam are good

Excellent...transparent.

At vice dean office

outstanding, demonstrating exceptional leadership, dedication, and a truly inspiring commitment to student success

Very very good excellent

Great mam

She is nice and she helps a lot for students

The vice-dean performs their duties responsibly and is supportive in addressing students' academic concerns.

professional, responsible, and supportive in addressing academic and student-related matters effectively.

Easily

Thanks for signing my documents immediately

V. Good

Excellent 👍

Best of all

Nice, she always lisen student problem..

Best always on time

From dean office

Nive

Very good, she helps the students everytime whenever it is possible

Great work

Very Good

The vice-dean is supportive, responsible, and handles

Very helpful and supportive to students

Easily

It's awesome

Good... She works on ceasing corruption in the International faculty of medicine

Perfect

The vice-dean's work is outstanding, highly efficient, and exceptionally supportive to all students.

It's okay only

always

Don't know

Best vice-dean on this planet

Not satisfactory

The vice-dean was supportive, approachable, and effective in handling academic and administrative matters.

Excellent 🍷

She doing her work good

Absolutely Nice

Exceptional...One of the most friendly and respectfull vice deen maam

Kind, cheerful and helpful.

Nicely

Mam is techer of our hospital therapy she is teaching well... We like mam classes

She's AWESOME! Lady with immense power! She changed everything. Always patient enough to listen to students' queries.I see many staff jealous of her English and Administrative power. I'm grateful that you're our Hospital therapy teacher this semester. Rooting for her more!

yrs

Very well

Fair

Really Good

Very very good

..

Online lecture

Nice

All are good

Online lectures

Good

Yeah, schedule is really bad in 8th semester it waste a lot of time.

Please build the bridge

Overall, the academic environment was positive and could be further improved with more

student feedback sessions.

Overall was fabulous

We need more teachings and activities in class

Nooo

It's good teaching method

Call FMGE teachers for rapid revision help for students

No comments !

Lecture should be need improvement

I have only one suggestion please do all lecture online

Unofficial gift, payment should be stop

Everything was excellent

No everything is good

Practical experience knowledge like being final yr students don't know about injection sutures and all clinical practice increases needed request ly

Teachers should try to get out the fear from students because most of the students fear teacher what if we explain wrong they will put less marks instead of putting less marks try to correct the students mistake some students are ready eager to learn from teachers

The course could be further improved by incorporating more interactive sessions and practical examples to enhance understanding.

the course was well-organized, and introducing more interactive sessions

Everything Is Good

No comments

None

Some extra bus and mashoodka at college time for students

Aizan mam is best in all the terms 100%

Classes are to be held near the imf campus. Not should be long distance

Mmf 2 washroom problem

Practical training needs to improve a lot

All lecture should be online

Offline lecture is better then online..

Please buil a nice and clean toilet in mmf 2 campus for students

excellent

Please make bridge in front of clinic old one

No.its already been good

Teacher should explain in the classes

Please ask someone help organise thing for you because its a skill not something you can do if you have authority.

good

No suggestions

Overall, the course is well-structured

Yes great things take time to come

University is too good

Everything is good

Make lectures online,we will get more time to study for FMGE exam.

Please take lectures online

Please provide drinking water at each university premises

Alll good

Please cancel offline lectures and complete year in mid June

Everything is excellent and well-organized; I have no additional suggestions.

No everything is fine

Noo

Teachers student interaction is less. Teachers asks questions and then that's it. Most of them won't make understand things that we don't know. As a student we are just learning, teachers are to guide but they just ask questions more in depth and then that's it. There should be atleast 10 - 20 mins for the Teacher's summary regarding topics and then if the questions were asked we could get some clear view on topic like how we can prepare next time. Just reading the book and taking notes usually takes lots of time for some students. (Above mentioned everything is only my opinion).

..

Everything is going good

Improve more clinical practice not only studying it doesn't help with anything

Don't know

Make all lectures online

Should be given more focus on the lectures, improving on the teaching of lectures by the teachers

I think this year final exam was too late

Want more interesting and interactive activity during lectures

Yes I would like you to revise the time table and put lectures before the practical classes as there is no sense putting practical classes before lecture

Overall the system is good and continuing the same quality of teaching will benefit students

Nothings

Everything is good for now

Keep showing death bodies etc.. Keep studying them as much as possible so that our anatomy will be better....

Please improve the quality of lectures add some 3d views

During winter 1st para class are difficult because of fog I have some health issues

nothing

It would be great if the classes are not held at very distant places.

Non

Clinical knowledge

Still lecturers read slides. I have nothing to say, honestly, as this is never going to change. I have written this many times already. Still this university is corrupted in every way. People with some power like GS as well as the ones he is friends with, can simply use mobile to write AVN.

yes

No suggestion

Everything was good

nothing

Clinical subjects should be more practically taught using equipments

Keep this

Nothing else everything is so far so good

Please 4th year all lecture are online

Everything is good with scope for continuous improvement

More Hospital And Clinic Practices

More online lectures

Better
